Contiweb Pre-Owned/Refurbished Ecotherm® Hot-air Web Offset Dryer

This 1998 Ecotherm dryer has an integrated 93-1020 V904 afterburner. In 2020 it was fully refurbished at the Contiweb factory in the Netherlands; including replacement parts of burner chambers and hot air valves.

◆ STANDARD EQUIPMENT & CONSTRUCTION FEATURES:

- ◆ The Ecotherm dryer is supplied as one complete unit
- ◆ Ecotherm complies with the latest standards EN 1539, NFPA 86 and the directives of the VDI
- ◆ Three temperature zones: heating zone, drying zone and cooling zone
- ◆ The air circulation system provides a high air volume to the patented "Crossjet" air nozzle bars
- ◆ Web temperature control by infrared camera, located between drying zone and cooling zone
- ◆ Two afterburner installations with heat exchangers and frequency-controlled fans
- ◆ Door sensors for safety
- ◆ VPN connection for remote diagnosis system
- ◆ Prepared for natural gas
