

IW-XPRTS

INTRODUCING OUR EXPERTS

Our team has been carefully selected over the decades and has hundreds of years-worth of experience working on single wide Presses. We know and understand all of the original factory specs for Goss Community and Urbanite type of Presses. Nobody else even comes close to our quality standards. We have a simple business model that implements a small menu, morals, ethics and credibility resulting in long term successful customers. We are a fully staffed Equipment and Service company that pays attention to detail.

Max Talamantes

Max has been with imPRESSIONS for 22 years. Max, Steve Salvino and Tom Loesch all worked together previously, creating a bond of more than 30 years. He is our Lead Mechanic at our headquarters. He rebuilds Goss Community and Urbanite equipment, in the dark, with one hand tied behind his back. His knowledge of the equipment is extensive, and he does a great job training our new recruits. Max also travels wherever he is needed for removals, installations and field service work. He assists with our inventory tracking and anything else we need him to do, always with a smile on his face. Max is professional, personable, and has our customer's success front of mind. Max is another long-term fixture here at imPRESSIONS, and is respected by all. "My goal is to keep customers happy whenever I travel. I always do my best in the shop at imPRESSIONS. I enjoy working at imPRESSIONS with all my co-workers and management."
