

# IW-XPRTS

## INTRODUCING OUR EXPERTS

Our team has been carefully selected over the decades and has hundreds of years-worth of experience working on single wide Presses. We know and understand all of the original factory specs for Goss Community and Urbanite type of Presses. Nobody else even comes close to our quality standards. We have a simple business model that implements a small menu, morals, ethics and credibility resulting in long term successful customers. We are a fully staffed Equipment and Service company that pays attention to detail.

## Michel Judy

**Michael** has been with imPRESSions for almost five years. Michael has a BS in Mechanical Engineering from Central Washington University in Ellensburg. He has applied his college degree and immersed himself in the Printing industry. He is a quick learner, has plenty of passion and is a versatile “utility player” for imPRESSions. He can play almost any position in the field and divides his time and talents between many tasks. He is a master with CAD drawings and works with 3D programs. Michael has the flexibility to work on projects such as removals, installations and in-house rebuilds. He is also an experienced welder and an apprentice in our manual machine shop at our headquarters. Michael is a homegrown Pacific Northwest resident, a husband and a father to a new baby girl. “Each day has a new obstacle which we must hurdle over and learn from. This has given us a great ability to address and resolve problems quickly.”
