INTRODUCING OUR EXPERTS

Jerry Loesch

Parts & Logistics Manager

Jerry has been with imPRESSIONS since 2000. As the P & L Manager, he has an array of responsibilities. We export to more countries than any other company in our district, except for Boeing, so Jerry is kept busy monitoring parts and equipment shipments all around the world. He is ultimately responsible for every shipment we make nationally and globally. Jerry also handles parts orders, sometimes leads press removals and is a start-up and training expert. On any given day Jerry may be running his department from our headquarters near Seattle or from a pressroom in Alaska or a conference in Florida.

"Working with all of our customers is extremely satisfying. From simple parts orders to emergency situations, helping our customers solve problems is what makes it all worthwhile."

Our team has been carefully selected over the decades and has hundreds of years worth of experience working on single wide presses. We know and understand all of the original factory specs for Goss Community and Urbanite type presses. Nobody else even comes close to our quality standards. We have a simple business model that implements a small menu, morals, ethics and credibility resulting in long-term successful customers. We are a fully staffed Equipment and Service company that pays attention to detail.
